

BACHELOR OF ARTS IN MULTIDISCIPLINARY STUDIES

The aim of the Multidisciplinary Program has a twofold purpose: first, to provide a broad general education with a biblical and religious studies core, and secondarily, to afford the student an opportunity to define the territory of intellectual inquiry to prepare students for service in the church, entry into the job market, or attendance at graduate school. The general objectives for the degree are as follows:

- Competency in communication of ideas
- Application of knowledge across the various disciplines
- Integration of Christian principles with the student's primary area of competence

This program of study includes course work in several subject areas as listed below. Individual courses are to be selected in consultation with the program advisor to develop an individualized program of study requiring a minimum of 120 credit hours.
